

Fiscal Sponsorship

As a leader in growing global philanthropy, we understand what it takes to run a nonprofit, which includes raising funds no matter your cause area. If your group or organization wants to generate money for a charitable cause but doesn't have the nonprofit status to do so, Global Impact can help make fundraising possible by serving as your fiscal sponsor.

Whether you plan to become a 501(c)(3) at some point or are looking for a permanent solution to receive funding, fiscal sponsorship through Global Impact can provide an efficient and affordable solution.

Fiscal Sponsorship Services

As your fiscal sponsor, Global Impact facilitates the solicitation and receipt of donations from within the U.S. and around the world. Our 501(c)(3) status allows your organization to apply for and receive grants and establishes donations as tax deductible. We also help you establish partnerships with funders, including foundations, corporations, public sector entities and individuals.

A fiscal sponsorship offers many benefits, and as your partner, Global Impact will:

- **Maintain a bank account** on your behalf, including all funds received for the organization.
- **Provide monthly financial reporting** on account balances and donations.
- **Liaise with donors** to facilitate processing and reporting of donations.
- **Report donor details** back to your organization, including gross amount of donations, to facilitate further donor acknowledgment and ongoing cultivation.
- **Provide donor acknowledgement services.**
- **Pay organizational vendor and contractor expenses.**
- **Provide payroll and benefits**, including comprehensive health care and a 401(k) employer match. (optional)
- **Support transition to Global Impact**, if currently working with another fiscal sponsor, including transfer of existing bank account balances, as well as relationships and contracts with vendors, contractors and donors. (optional)

Online Giving Platform

We work with you to design, develop and deploy eye-catching, custom donation pages. The look and feel of your giving page can also be applied seamlessly to the rest of your website. Other features include the ability to:

- Receive credit card, check, e-check, ACH, wires and securities.
- Create a variety of recurring donation options.
- Send donor acknowledgements and U.S. tax receipts.
- Integrate with other platforms as needed (e.g., Salesforce).
- Develop simple donation forms that can be integrated into an existing website.

CASE STUDY

Migrant Offshore Aid Station

The logo for Migrant Offshore Aid Station (MOAS) consists of the letters "MOAS" in white, bold, sans-serif font, centered within a dark blue oval.

► Migrant Offshore Aid Station (MOAS) wanted to reach more donors by expanding their fundraising reach to the U.S. They needed a partner to serve as their fiscal sponsor and strategic advisor on communication and partnership outreach.

They turned to our team for help and we:

- Served as MOAS's U.S.-based fiscal sponsor, to solicit and accept tax-deductible gifts from U.S. donors, including individuals, corporations, and foundations.
- Established an online donation platform and processed gifts from donors worldwide.
- Expanded the partnership to include advisory services that developed their value proposition and communications strategy, and delivered foundation prospecting and outreach.

This partnership resulted in more than \$1.5 million raised in the first six months through the custom donation platform and processed gifts from 75 countries. Over the last four years, it has resulted in nearly \$3.5 million raised.

“Beyond Global Impact’s financial services, their strategic support has allowed MOAS to make crucial contacts and be represented on international forums. Global Impact’s services and support have been key in furthering our mission to assist the world’s most vulnerable communities.”

Regina Catrambone
